TERMS AND CONDITIONS*

These terms will govern any orders placed with Maslen Inc., therefore we encourage you to read these terms prior to placing your order. By submitting an order to Maslen Inc., you (also referred to as "the customer") are hereby agreeing to all the terms and conditions as set forth below. This agreement is in lieu of a written consent, and will be binding by the both the customer and/or their representative.

GENERAL*

Maslen Inc. specializes in custom screen printing promotional items such as ceramic mugs, glasses, plastic bottles, stainless steel travel mugs, and an assortment of promotional items. Maslen Inc. strives to deliver the highest quality as well as exceptional service at the most competitive prices in the market. While we are committed to meet your every need and expectation, we wish to inform you of certain limitations that are inherent within the screen printing industry.

METHODS OF SCREENPRINTING

We employ two different methods of screenprinting.

The first is a "direct printing" method, achieved through the use of a "direct printing" machine. This process is preferred for single-color printing jobs, due to its accuracy and even application. Most one color orders undergo this process.

The second method is "Decal Printing". This process is sometimes considered more of an art than a science, as the resulting imprint is unknown until the "firing" process. Although the decal printing process is intense and time consuming, it is the only existing process that enables us to recreate complex, vibrant and multi-colored permanent through the use of CMYK colors. Any job that requires more than a one color imprint may be requested using the decal method.

ORDERING PROCESS

Payment

Payment is due in full prior to commencement of production. Credit card authorization and address verification must be received prior to processing the order.

Confirmation

Customer orders can be accepted through phone, via email or fax. A follow up acknowledgement will be faxed to the customer stating your order, price quote, and design layout. After customer approval the order will be processed.

ARTWORK

Guidelines for submitting artwork

Please send your imprint instructions to us immediately. If you are emailing it to the art department, please put the name and order number on the subject line. We will not accept any responsibility for delays in processing an order if we do not receive the artwork in a timely manner.

Submitted artwork must have complete and specific instructions to layout, size, typestyle and placement. Artwork will be sized to fit the listed maximum imprint area of the product that is specified in the catalog. If the artwork is not properly sized or camera-ready, extra charges will apply at the rate of \$50.00 (G) per hour. We reserve the right to determine what is camera-ready artwork. You will be advised in advance of extra artwork charges, and approval will be required prior to production of your order.

We prefer Illustrator (.pdf, .ai, .eps), Photoshop (.psd) at 300 dpi resolution, high quality jpeg (300 dpi), tiff (300 dpi), gif (300 dpi), or Freehand 10 files. All artwork needs to be vectorized and fonts should be outlined.

SCREEN CHARGE

A \$45.00 (G) screen charge per color, except on decals will apply. Repeat order will not require a screen charge that has the same design and same color on same item(s,) if reordered within 2 years. After 2 years the normal screen charge will apply.

LESS THAN MINIMUM

Less than a minimum charge of \$45.00 (G) per color will be applied to any order less than 72 pieces.

PRE- PRODUCTION SAMPLES*

Pre-Production samples are available at \$63.00 (G) per color, plus normal art and screen charges.

This charge is refundable if an order results with no alterations to the original copy. M. Maslen Inc. has the right to issue a pre-production sample for your approval prior to the production for all orders with complicated artwork or colors.

Additional Imprint Colors

Catalog prices are 1 color imprint only. An additional imprint color is \$.60(C) per piece on most items.

Production Time

Normal Production time is 10 working days after artwork approval. Allow 15-20 working days for additional processes such as applying a decal, banding, and personalization of the product.

When you request a pre-production sample or a paper proof, the production time will only begin *upon* approval of the sample or proof. Therefore the timeline may be delayed several days past the original estimate. All production timelines reflect business days.

Imprint Using Precious Metals

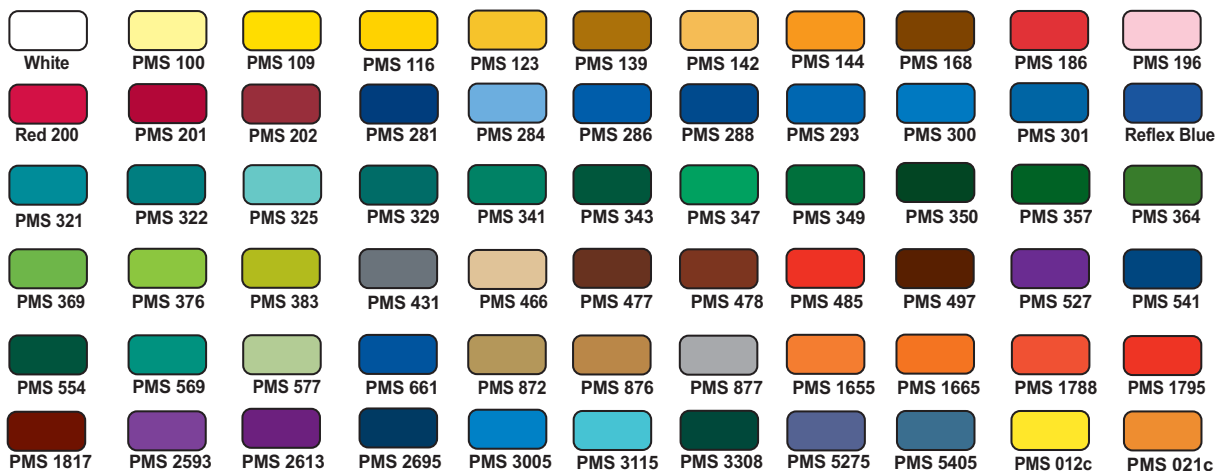

Call for pricing.

COLOR MATCHING

Ceramic and Glass Colors are available in a wide variety of colors. Exact PMS matches are not available. We try to match your color selections as closely as possible using PMS numbers as a reference only. Due to the nature of ceramic and glass colors, an exact match cannot be guaranteed. Colors may vary due to firing conditions or the type of substrate. For example, there are many types of glazes used on ceramic products. The type of glaze may or may not have an effect on the final color of the product. All standard ceramic colors are available and are fired at a temperature of 1100 to 1200 degrees F, permanently fusing the color. Gold and Platinum are available on most items. Because Gold and Platinum are not ceramic colors they are not dishwasher safe and could wear off with prolonged use. Precious metal decorations tend to scratch and tarnish and are not recommended if imprint permanence is desired.

Standard Imprint Colors

(We do not guarantee exact color match if you choose your own PMS color.)

You are not limited to these colors. You can choose any specific pantone colors, but we do not guarantee the exact matching. We will do our best to match.

SHIPPING

Motor Freight, UPS and Federal Express. All orders shipped UPS or FedEx require special packaging so as to ensure safe arrival. The cost per carton is \$7.00 each. All orders over 150 lbs. will be shipped by motor freight.

Rush Delivery

Rush delivery is available. Please contact a factory representative for details and pricing.

RETURNS

Shipments returned without our written permission will be refused. No credit allowed after 30 days.

Quality of Glassware, Ceramics

Variations and tiny imperfections in glassware and ceramics are not considered flaws. These conditions are within acceptable industry standards.

Drop or Split Shipments

There will be a \$10.00 (G) charge for all drop or split shipments after the first address. Full cartons quantities only.

LOGOS*

Products and logos shown in this catalog appear only to illustrate the basic products and ability to include messages and art on them, but are never intended to suggest that the imprints were designed by this company or that the products with those specific imprints are readily available to any purchaser without the permission of the owners of the trademarked or copyrighted art or copy.

PROPOSITION 65

Also known as the State Safe Drinking Water and Toxic Enforcement act of 1986, California Proposition 65 is a law that requires warning to consumers if a product exposes consumers to a variety of chemicals including lead and cadmium. Prop 65 does not ban any product, it simply requires warnings. Prop 65 applies only in California and covers all products distributed in the State. Please note Maslen Inc. complies with all Federal Regulations concerning chemical contents. The State of California requires significantly stricter standards be met.

Due to fluctuating manufacturer costs, prices may change without notice.
